

Amendments to the Specification:

Please replace the paragraph beginning at page 5, line 17 with the following amended paragraph:

Axially displaceable lenses, here a lens LZ of a second group LG2, and/or radially displaceable lenses, here a lens LX, are provided and are controlled by the control unit 20 by means of adjusting members LX, LX1. Optionally, at least one lens surface can be finely aspherically processed, and it need not be rotationally symmetrical.
